

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

1. (Currently Amended) A refrigerating machine oil composition, ~~characterized by comprising:~~

a prescribed base oil[[],];

a phosphorothionate;

a phosphorus-based extreme pressure agent other than said phosphorothionate;

and

an oil agent.

2. (Cancelled)

3. (Cancelled)

4. (Currently Amended) A refrigerating machine oil composition according to claim 1, ~~characterized by~~ further comprising an epoxy compound.

5. (Currently Amended) A refrigerating machine oil composition according to claim 1, ~~characterized in that~~ wherein said oil agent includes an ester oil agent.

6. (Currently Amended) A refrigerating machine oil composition according to claim 1, ~~characterized in that~~ wherein said oil agent contains at least one type selected

from among esters of monobasic acids and monohydric alcohols, and esters of linear dibasic acids and monohydric alcohols.

7. (Currently Amended) A refrigerating machine oil composition according to claim 1, ~~characterized in that~~ wherein said oil agent contains at least one type selected from among esters of $\geq C_{12}$ monobasic acids and monohydric alcohols, and esters of linear dibasic acids and monohydric alcohols.

8. (Currently Amended) A refrigerating machine oil composition according to claim 1, ~~characterized in that~~ wherein said oil agent includes an ester oil agent, and the content of said ester oil agent is 0.01-10 wt % based on the total weight of the composition.

9. (Currently Amended) A refrigerating machine oil composition according to claim 1, ~~characterized in that~~ wherein said base oil contains at least one type selected from among esters of polyhydric alcohols and monobasic fatty acids and esters of alicyclic dibasic acids and monohydric alcohols, and said oil agent contains at least one selected from among esters of monobasic acids and monohydric alcohols, and esters of linear dibasic acids and monohydric alcohols.

10. (New) A refrigerating machine oil composition, comprising:
a prescribed base oil;
a phosphorus-based extreme pressure agent; and

at least one oil agent selected from esters of monobasic acids and monohydric alcohols.

11. (New) A refrigerating machine oil composition according to claim 10, wherein said phosphorus-based extreme pressure agent contains a phosphorothionate.

12. (New) A refrigerating machine oil composition according to claim 10, wherein said phosphorus-based extreme pressure agent contains both a phosphorothionate and a phosphorus-based extreme pressure agent other than said phosphorothionate.

13. (New) A refrigerating machine oil composition according to claim 10, further comprising an epoxy compound.

14. (New) A refrigerating machine oil composition according to claim 10, wherein said oil agent contains at least one type selected from among esters of $\geq C_{12}$ monobasic acids and monohydric alcohols.

15. (New) A refrigerating machine oil composition according to claim 10, wherein the content of said oil agent is 0.01-10 wt % based on the total weight of the composition.

16. (New) A refrigerating machine oil composition according to claim 10, wherein said base oil contains at least one type selected from among esters of polyhydric alcohols and monobasic fatty acids, and esters of alicyclic dibasic acids and monohydric alcohols.
